As a Public Safety Officer, Josh is often first on the scene and excels in preserving life with his composed response and quick actions. Josh focuses on the needs of the physical environment as it relates to the safety and security of employees, patients, students, and systems in healthcare, school, university, and multiple-use construction facilities.

With his extensive background in the fields of criminal justice, fire compliance, and life safety, Josh can effectively apply his training to real experiences to benefit the national clientele. Josh is an NFPA Fire Inspector I, Fire Inspector II, Plan Examiner, and Certified Fire Protection Specialist. Josh has spoken to numerous organizations about the importance of accurate, up-to-date life safety drawings for healthcare facilities as well as field verification of life safety drawings. He has also instructed countless individuals in CPR and first aid.

Josh Breese has been in the public safety field since 1997. He brings his extensive experience in police response, patrol and criminal investigations, fire suppression, fire inspections, and fire prevention education to The LockOut Company. Josh has training and experience in 911 dispatch, crime scene investigation, CPR/BLS instruction, active shooter response, clandestine lab response and mitigation, and fire investigation.

Giving to his communities in different capacities for the past 20 years, Josh has been received several awards and commendations as he served without reservation. For decades, Josh has worked closely with community groups to establish crime reduction initiatives and community policing policies.
